The flag of Hawaii & quick facts about the state (source Wikipedia):

Hawaii:
Area Total 10,931 sq mi (28,311 km²)
Land 6,423 sq mi (16,638 km²)
Water 4,507 sq mi (11,672 km²) 41.2%
Area Rank 43rd
Population Total 1,455,271
Population Rank 40th
Latitude 18° 55' N to 22° 27' N
Longitude 154° 48' W to 179° 22' W

Hawaii (listen) hə-ˈweɪ[ⓘ]; Hawaiian: Hawaiʻi [həˈʔeʔi] or [həˈweʔi]) is a state in the Western United States, about 2,000 miles (3,200 km) from the U.S. mainland in the Pacific Ocean. It is the only U.S. state outside North America, the only state that is an archipelago, and the only state in the tropics. Hawaii comprises the entire Hawaiian archipelago, 137 volcanic islands spanning 1,500 miles (2,400 km) that are physiographically and ethnologically part of the Polynesian subregion of Oceania. The state's ocean coastline is consequently the fourth-longest in the U.S., at about 750 miles (1,210 km). The eight main islands, from northwest to southeast, are Niʻihau, Kauaʻi, Oʻahu, Molokai, Lānaʻi, Kahoʻolawe, Maui, and Hawaiʻi—the last of these, after which the state is named, is often called the "Big Island" or "Hawaii Island" to avoid confusion with the state or archipelago. The uninhabited Northwestern Hawaiian Islands make up most of the Papahānaumokuākea Marine National Monument, the United States' largest protected area and the fourth-largest in the world.

Of the 50 U.S. states, Hawaii is the eighth-smallest in land area and the 11th-least populous, but with 1.4 million residents ranks 13th in population density. Two-thirds of the population lives on Oʻahu, home to the state's capital and largest city, Honolulu. Hawaii is among the country's most diverse states, owing to its central location in the Pacific and over two centuries of migration. As one of only six majority-minority states, it has the country's only Asian American plurality, its largest Buddhist community, and the largest proportion of multiracial people. Consequently, it is a unique melting pot of North American and East Asian cultures, in addition to its indigenous Hawaiian heritage. As of 2020, Hawaii has the longest life expectancy of any U.S. state, at 88.7 years. Settled by Polynesians some time between 1000 and 1200 CE, Hawaii was home to numerous independent chiefdoms. In 1778, British explorer James Cook was the first known non-Polynesian to arrive at the archipelago; early British influence is reflected in the state flag, which bears a Union Jack. An influx of European and American explorers, traders, and whalers soon arrived, leading to the decimation of the once isolated Indigenous community by introducing diseases such as syphilis, gonorrhea, tuberculosis, smallpox, measles, leprosy, and typhoid fever, reducing the native Hawaiian population from between 300,000 and one million to less than 40,000 by 1890. Hawaii became a unified, internationally recognized kingdom in 1810, remaining independent until American and European businessmen overthrew the monarchy in 1893; this led to annexation by the U.S. in 1898. As a strategically valuable U.S. territory, Hawaii was attacked by Japan on December 7, 1941, which brought it global and historical significance, and contributed to America's decisive entry into World War II. Hawaii is the most recent state to join the union, on August 21, 1959. In 1993, the U.S. government formally apologized for its role in the overthrow of Hawaii's government, which spurred the Hawaiian sovereignty movement.

Historically dominated by a plantation economy, Hawaii remains a major agricultural exporter due to its fertile soil and uniquely tropical climate in the U.S. Its economy has gradually diversified since the mid-20th century, with tourism and military defense becoming the two largest sectors. The state attracts tourists, surfers, and scientists with its diverse natural scenery, warm tropical climate, abundance of public beaches, oceanic surroundings, active volcanoes, and clear skies on the Big Island. Hawaii hosts the U.S. Pacific Fleet, the world's largest naval command, as well as 75,000 personnel of the Defense Department. The relative isolation
